

RESPONSE SYSTEMS TO ADULT SEXUAL ASSAULT CRIMES PANEL
ONE LIBERTY CENTER
875 N. RANDOLPH STREET, SUITE 150
ARLINGTON, VA 22203-1995

The Honorable Eric Fanning
Acting Secretary of the Air Force
1670 Air Force Pentagon
Washington, DC 20330-1670

OCT 23 2013

Dear Mr. Acting Secretary:

The Response Systems to Adult Sexual Assault Crimes Panel is conducting an independent review and assessment of the systems used to investigate, prosecute, and adjudicate crimes involving adult sexual assault and related offenses. As part of this review, I want to give the Air Force the opportunity to provide written comments on any of the issues, as you deem appropriate, raised in the Panel's terms of reference, found in section 576(d)(1) of the FY13 National Defense Authorization Act and attached for your convenience. Please provide written comments by November 15, 2013.

Additionally, I request the Air Force's responses to the matters raised in the attached request for information. The issues the Panel is charged to review are important and directly affect the Department of the Air Force, so it is essential that we receive your views and the requested information. In order to allow your staff time to gather the information in the attached request for information, it has been staged with three separate suspense dates, as listed in the attachment. Thank you for making the Air Force Judge Advocate General available to appear before the Panel at our meeting on September 25, 2013, and for your continued support in making personnel and resources available at future meetings.

The Response Systems Panel is an advisory committee under the Federal Advisory Committee Act. Unless appropriately marked by the submitter as classified or otherwise not releasable to the public, all comments received by the Response Systems Panel will be treated as publicly releasable. My point of contact is Colonel Patricia Ham, Staff Director, who may be reached at (703) 693-3827 or patricia.a.ham.mil@mail.mil.

Sincerely,

Barbara Jones
Chair
Response Systems Panel
