Good Afternoon Col [REDACTED]

I will be in PA and close to the Aberdeen Area. My plan is to contact General Dellarocco's staff and see if I can set up an appointment to see him. He stated at training and videos we watched that he had a SHARP phone and open door policy on this issue. I want to take him up on his offer. My desire is not to by-pass the chain of command.

Col [REDACTED] I appreciate your true support of the Sharp program and the desire to see Sexual Harassment and Assault be wiped out of the military. I will not be here when you depart our command but I truly want to thank you for all you have done and tried to do for USAEPG.

From what I have observed from Gen Dellarocco is that he is going thru the motions and has not bought into the program. Just following orders. Sharp training has now become a joke to the work force. I know this from the comments I hear from our workforce and across Ft Huachuca. I am offended deeply by these comments on such a serious subject. By talking to him as a victim and supplying evidence I am truly hoping to get buy-in. He is the one that sets the command climate and is in constant contact with the other Senior Leadership in the Army. My hope is to get total buy-in by the army. It saddens me deeply that the military must be forced by congress to make change. Unless the military at the top buy-into these changes no real change will take place. We as a military will continue to go thru the motions and not solve this devastating problem.

Best Regards,

Donna Adams
